Romeo Models

Brief History: From 1999 to 2009, Romeo Models, has been managed by Lorenzo Romeo since 1999 and from the beginning was in close contact with Pegaso Models, for a mutual cooperation in producing quality products. This led to the appointment of Luca Marchetti as Art Director of this Sicilian Company.

Characteristics of production:

Romeo Models produce historical subjects only in the following sizes: 54mm, 75mm. and 90mm., from ancient Greece to World War II. using different experts for different periods. In recent years the production has been characterized by focusing on historical periods and specific subjects such as the Kingdom of Naples Joachim Murat, the ancient Hoplites, Romans and Crusaders.

Romeo Models have enjoyed the collaboration of great Sicilian sculptors, namely Gianni La Rocca, Maurizio and Bruno, as well as a Russian sculptor Victor Konnov, interspersed with works by Andrea Jula. We also enjoy the collaboration of some great painters such as Danilo Cartacci, Diego Ruina, Emiliano Iacobacci, Fabrizio Frascchetti, Francesco Sapienza.

Models to remember:

The 90mm Gulum Warrior marked the start of our collaboration with Pegaso Models, and the Sicilian Hoplite started the very successful series of Hoplites and now we are forging ahead with the even more popular 75mm series.
